

DOCKTON

Miss Bessie Dean spent the week end with friends in Seattle.

Col. and Mrs. Pabst were Tacoma visitors on Saturday of last week.

We are glad to learn that Mr. G. Middlecoff is improving at this writing.

Mr. T. Berry returned home on Saturday after a visit of several days in Portland.

Miss Ruth Andersen of Tacoma was the guest of Mrs. J. F. Riehm on Wednesday of last week.

Mrs. Harry Egan, who is ill with an attack of the flu in a Tacoma hospital, is getting along nicely.

Mrs. P. Mansen of Seattle called on old friends here on Wednesday. She formerly resided in Dockton.

Mrs. Carl Ruhlen and son Gordon attended the concert in Tacoma given by the famous violinist, M. Heifitz.

Mrs. Sullivan and children of Puyallup visited with her sister, Mrs. J. Swanson, on Thursday of last week.

The dance given by Mrs. Martinovich at Dockton Hotel was well attended and a good time was enjoyed by all.

Mr. and Mrs. Claude Petersen entertained over the week end their nephew, Mr. Fred Madsen, wife and little daughter Eleanor, of Tacoma.

Miss Anne Larsen was guest at the Landers home at Southern Heights on Saturday and Sunday. Miss Anne has employment in the packing department at the fish cannery here.

Dockton people were treated to a surprise on Saturday morning when a phantom ship was towed into the harbor and moored on the beach. The vessel is now resting on the remains of the "Fleetwood."

The Ladies' Aid met at the home of Mrs. John Miller on February 4th. After a short business session the hostess, with the assistance of Mrs. C. Madsen and Mrs. G. Nilssen served delicious refreshments. Mrs. J. Danielsen will entertain the Aid on March 3rd.

COVE

Glad to say, all the sick are improving.

The coon is treed, by hooker! Now to smoke him out. Comin' drum.

We wonder if some of the "flu" from Seattle flew our way. Shoot the thing!

Mr. Arthur Fox has been confined to the house the last week, suffering from the effect of a severe cold.

Miss Doyle of Seattle is spending the week end with Mr. and Mrs. W. G. Doyle.

Mr. J. Jorgenson has commenced work on the cement cellar walls of the new house Mr. Conrad Anderson is going to build.

By the way, we unintentionally overlooked the names of Mr. and Mrs. B. J. Fjeldal as guests at the Pearson-Lundberg wedding.

Mr. P. Patten left on Saturday for Seabeck in the Hood Canal region. We shall miss him somewhat. Pretty good, all around fellow just the same, if he is something of a

For a business education investigate Success Business School, Seattle Wash.

WANTED

Twelve or fifteen head of young stock. Will pay cash and the highest market price. Anything from four months old to two years old. R. B. Hayes, Portage. Phone Bk. 1153. 38-9-0-1

card shark. Since writing the foregoing we learn that Mr. Patten is down with the flu. Too bad. Hope he pulls through all right.

W. G. Doyle was in Seattle on Monday last on business. Took the boat this trip.

Mr. B. J. Fjeldal has been suffering from a severe cold. While able to be up and around, it is difficult for him to talk. Sorry, Bert.

Mr. A. Sundberg has given up his work on the Virginia IV. He expects to start to work this coming week at the shipyard at Dockton.

Mr. and Mrs. Thos. Thorsen motored over from Seattle on Sunday and enjoyed a pleasant visit with Mr. and Mrs. E. N. Earles. Mr. Ole Thorsen returned to the city with them.

The neighbors of Mrs. A. L. Hotchkiss have been the recipients of a fine treat at her hands in the way of samples of nice homemade head cheese. Some treat.

J. E. Cherry, high captain of registration, wished me to inform the voters of Cove that the registration books will be open until October 15th, and that the books will be found at Mr. Petersen's store.

Mr. Heath of Burton, the plasterer, is putting the finishing touches on the interior of Mr. A. C. Moe's fine bungalow. The work will be well done, as Mr. Heath is a regular war horse in handling a trowel.

We learn that Mr. A. H. Johnson has been in bed for several days. Caught a bad cold while threshing his beans. However, he was able to get out and feed the pig, so it didn't starve. It has been many a long day since sickness made him give in.

Misses Florence and Flora Sigrist presented their father with a fine leather rocker—a dandy. We hope Mr. S. doesn't get the disease known as "lazy bones." It seems to get into the feet, mostly, causing paralysis. Sampling that chair might bring on an attack.

Mrs. W. V. Crozier has been in the city the past week with her sister, Mrs. W. W. Beebe, relieving her in the care of Mr. Beebe, who has been a great sufferer in the last stages of Bright's disease. He passed away on Sunday, Feb. 1st. The remains were taken to the old home at Kingsland, Kitsap county, for burial.

Mrs. P. A. Petersen, our merchant's wife, is putting on lots of frills lately, since she got that electric washing machine. She says: "I hardly know what to do now—put in clothes, pour on the water, switch on the current, and lo, the thing is done." Now, she thinks if someone would only invent a machine for washing the lit'le tots, her cup of happiness would be full.

The Red Cross chapter enjoyed a delightful afternoon last week with Mrs. H. O. Thomason as hostess. Delicious refreshments were served. Mrs. P. D. Halsey of Vashon was present. She must be a loyal member to come so far. The ladies had a rich musical treat, both instrumental and vocal, rendered by Mrs. Frank Elden.

If "pride goes before a fall," we got a jolt. Just as we were boasting about our healthy community we learn that Mrs. Baker has been confined to her bed mostly for the past week with a severe cold. And Mr. W. V. Crozier has been having a strenuous time. His good wife away in the city on a sad mission of mercy. Hardly able to be on his feet and wrestling with three meals a day, and with dishes, pots and pans. Mr. C. finally gave it up—took to his bed. Mr. Bert Moore has been helping about the place, caring for the stock.

We fail to understand just what the weather man is trying to "put across." The daisies and dandelions are blooming, and yesterday, Feb. 8th, a big bumblebee was buz-

THE PEOPLE'S FORUM

Opinions That Are Wise and Otherwise

201 Hineckley Bldg., Seattle, Wash.

Vashon Island News-Record

I just read the "Entitled to a hearing" letter in your issue of Feb. 5th. It certainly furnished food for study for every tax-payer on the Island.

I am greatly interested and want to see the wisest action taken. Until I read that article I really had given little thought to this, but when you do study it, you certainly see there is a large question to study.

Like anyone who has watched developments come to a country, or city, I fully endorse the making of the most serviceable roads and streets. The question is not shall this trunk road be paved, but whether it should be done under present circumstances. Those questions you give publicity to, are worth careful consideration and they certainly seem to point the way to a broader and better plan of improving transportation on the Island than paying this highway.

I have driven over practically this entire State and neighboring States and from personal experience can say this: about the poorest piece of road you can find is the so-called permanent highway which is allowed to take care of itself after being laid down. One sample of that was the road out of Spokane for some time, I mean the Sunset Highway; in both cases the road was simply put down and then allowed to take care of itself. The inevitable result was worse than a "dirt" road. The chuck-holes are much sharper and

zing around (it might be a good thing to have the Red Cross knit some stockings for him, as he will surely get cold feet before summer arrives.) Numerous summer birds are here, also; the bluebirds are especially noticeable. So, spring-time is here.

We enjoyed a pleasant evening recently with Dr. Stockley and his estimable wife. Enjoyed listening to the doctor's many musical records of great singers and players. We liked some of McCormick's, the tenor, as we had read much of his noble work during the war in behalf of the Red Cross. A violin solo by Mabel Graham was delightful. Then, too, Mrs. Stockley served some nice cake and coffee. (I am afraid to mention the latter fact for fear that all the old bachelors in the community will soon be rushing down that way. Don't blame me if they do.) Vale.

more hurtful than any unpaved road possibly could be, and there were just as many of them in one road as in the other.

On the other hand I have never driven over more satisfactory roads than those of the Grays Harbor County macadam. But in this case the roads were attended to. Every time I drove there I met a man and team taking care of them.

Right here, too, is one of the important things connected with this whole question; I mean maintenance. Say it costs about \$12,000.00 per mile to lay good gravel and about \$30,000.00 per mile for hard surface. The difference in interest will more than keep up the gravelled road, and keep it up in "apple-pie" order at that.

Here is about the way the comparison stands:

Gravelled road costs \$12,000.00 interest 6 per cent, \$720.00 yr.

Concrete road costs \$30,000.00 interest 6 per cent, \$1800.00 yr.

Interest difference per mile, \$1020.00.

If one road attendant can care for about ten miles of road, this means that out of the saving in interest charges alone, there is a fund of \$10,500.00 annually which may be devoted to road maintenance without calling on the tax-payers at all. I will guarantee to furnish a good man and team to care for such a road at a cost which will save the greater part of this amount to the Island people, and at the same time give a thoroughly good road.

Without taking a stand against

VASHON HEIGHTS

Mr. Jack Whittle has the Cowan bulkhead completed.

Mr. Thad Neese was a visitor in Seattle on Friday.

Mrs. Clarence Bragg was a Seattle visitor on Monday.

Mr. Geo. Simons was a Heights visitor on Sunday.

Mrs. Graves was a visitor at her summer cottage on Sunday.

Mr. Glenn Farley spent Sunday at his summer cottage at the Heights.

Sloan Randolph has just completed a new bulkhead for Mr. Thad Neese.

Mr. E. W. Lindley has the Malloy house well under way. He ex-

pects to have the building under roof by the first of the coming week.

Mr. Vernon Ramsey has started to do some clearing on his newly acquired property.

Miss Jessie Mustard will erect a new bungalow on her lot west of the dock in the near future.

Elliott Neese is installing the plumbing in a building at Dolphin Point for Mr. Charles Taylor.

Vernon Ramsey expects his mother to arrive in a few days from Butte, Mont. She plans to make an extended visit here.

The Vashon Land Co. will put in cement tile from the spring which supplies people on the beach, in the near future.

Mr. Hines arrived at Vashon Heights on Monday from Indiana. He will make his home with his uncle, H. C. Snyder.

The people of the North End were very glad to know that the new owner of Mr. Geo. Bonnell's

place was Mr. Glenville A. Collins, mining engineer and manager of the Wellman-Seaver-Morgan Company, one of the largest firms in the country dealing in contractors' and manufacturers' machinery and equipment. We recall with appreciation and pleasure Mr. Collins' successful efforts to obtain extension of the telephone and electric light service into the district south of the high school, and now that he is going to make his home with us at the North End we are hopeful that it will not be long before electric lights will be a fact in our homes, too.

About April 15th Mr. Collins expects to make a business trip to China, where he is interested in the promotion of an important project. We welcome Mr. Collins' family and extend to them our very best wishes.

Three essentials in successful beekeeping are: Knowledge of bees, skill in manipulation, and good equipment. Bees should never be fed anything but good granulated sugar or good honey which is known to be free from foul-brood germs.

Mrs. A. Hedman was looking over her property on the Island last week.

NOTICE

The Board of Trustees of the Grange Warehouse Company of Vashon Island Grange wish to announce that all necessary arrangements have been made to receive and deliver orders for goods, also to issue stock certificates to members. Mrs. L. A. Wise, Feb. 10-'20. Sec'y.

We sell Rhode Island Reds, Barred Rocks and White Leghorn baby chicks; Reliable Blue Flame Brooders and Queen Incubators. Queen Hatchery, 89 Pike St., Seattle. Elliott 2054. 17

BURTON

Our regular Burton correspondent, Mrs. W. C. Whitfield, is reclining on the couch this week—not with any intention of taking life easy—just a case of compulsion. And the rest of the family have been doing the same thing. In fact, scarcely a family in Burton but what has had a touch of grip—some more serious than others.

Mrs. Fred Vye and daughter Muriel have been very ill since Sunday. Mrs. Vye's mother, Mrs. I. M. Smith came down at the same time and on Monday was removed to Tacoma where she could have every attention. And here is where the quiet, gentlemanly young man, George Vye, steps in, and without any fuss prepares the meals for the high school teachers who are boarding there, thus proving that he can serve in the dining hall as well as on the floor of the gym when a stiff game of basket ball is on hand.

Mr. and Mrs. Alfred Ireland and children, Mr. R. W. F. Martin of Portage, and Miss Clara Maitland of Burton, were dinner guests of Dr. and Mrs. Guy Ireland on Monday. Mr. and Mrs. Alfred Ireland expect to leave on Friday of this week for California.

Mrs. N. A. Jones of Ellisport spent Tuesday with Burton friends, in the afternoon attending Vashon Island Woman's Club at the home of Mrs. F. C. Heilge. And the balance of her stay was spent with Mrs. W. S. Bentley.

Mrs. L. Gussman, a milliner from Wenatchee, spent the week end with her old-time friend, Mrs. L. S. Sanderson. She was so pleased with our Island that she left a check to pay for a lot at Portage in the Mattson place, and will spend her summer vacations here. Mrs. Sanderson has also decided to buy an adjoining lot at Portage.

Mrs. Alice Godfrey is a victim of the grip this week, and Mr. Godfrey comes in "second best," but doesn't dare peep, as the rural mail must go out every day, "whether or no."

Mrs. Fred Udell is bravely fighting a complication of troubles and has been a very sick woman for weeks. We are very glad to note improvement in her condition.

Notice is posted for a school election to be held at the grammar school on Saturday, March 6th, for the election of two school directors, one for two years and one for one year. Polls will be open from 1:00 to 7:00 p. m.

Miss Ione Sutherland of Tacoma is visiting at the home of Mr. and Mrs. W. C. Whitfield.

Expert sawing at Rendall's.

LUANA BEACH ITEMS

At last the quarter mile of the Seallberg road is receiving attention and will be completed. For twelve years we have climbed the mile hill for our mail.

Mr. A. Stewart is receiving medical treatment in Tacoma for a strained back.

The Virginia III is now making week end trips to Maury dock with the promise of daily service when the vacation season opens.

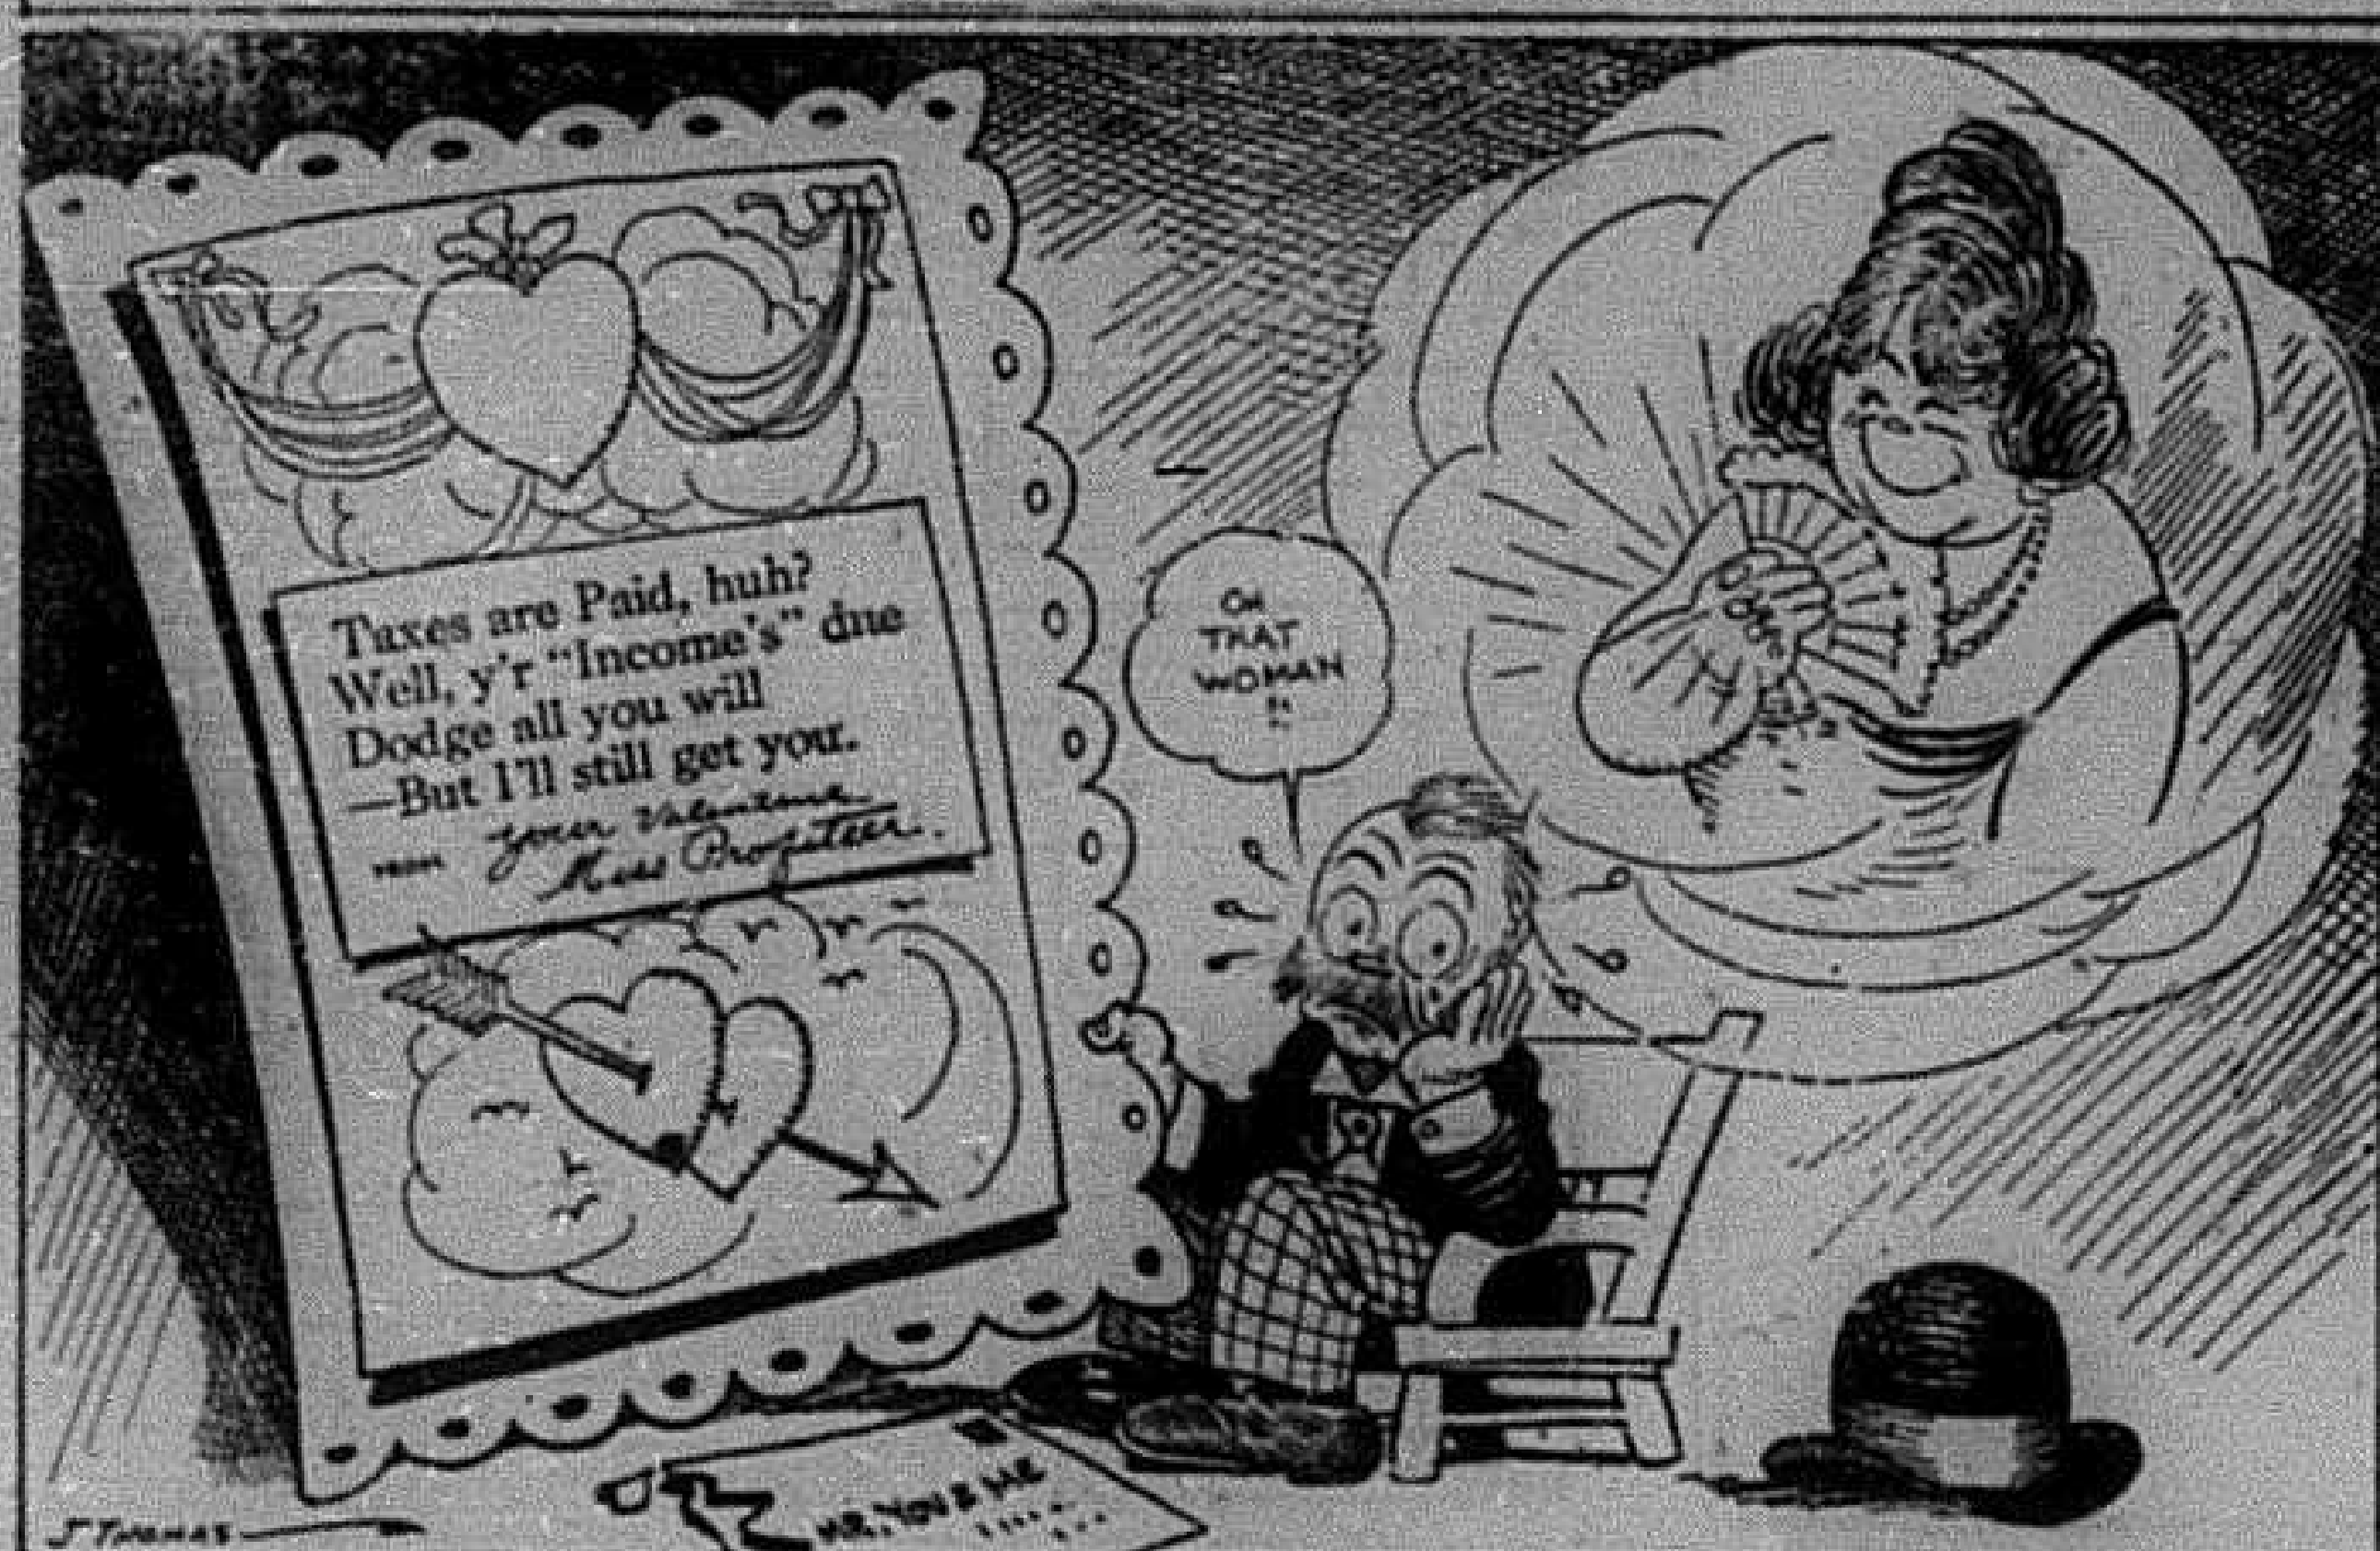

George and Edward Fisk, grandsons of Mr. Habbell, are assisting in making new attractions in and around this famous summer camp. Besides several new features is a full-grown man thirty feet in height.

For day-old chicks call Siegrist Hatchery. Phone Black 202. 12

Tacoma's Exclusive Boys' Suit Shop is located at 607 Fidelity Building. There is where the money is saved. Special features: Double Seat and Knees in every Suit, making them last twice as long. 12

Neolin soles at Rendall's repair shop, Portage. Phone Red 1151.

A LEAP YEAR VALENTINE

Vashon-Maury Islands: The choicest territory between Seattle and Tacoma.

A recent Sunday issue of the Los Angeles Times consisted of 182 pages. It is not difficult to locate the concerns that are hogging the newsprint supply and making it exceedingly difficult for the rural press to obtain white paper at any price. Not many people care to wade through an edition of even fifty pages of a metropolitan paper. These large editions are a positive waste, and if not curtailed soon, thousands of rural communities will be deprived of their home paper.

Leonard Wood has answered the challenge of Miles Poindexter to debate the issues of the day with him on the well-known "Hustings" in South Dakota. Wood is as direct as Roosevelt was, and would not consider taking advantage of the law of the Southmost Dakota, which allows the challenged majority candidate to ask

somebody else to do his pleading for him. So it is that when the March winds begin to warm up or chill up the prairies, according to their mood, Leonard Wood of the Nation, and Miles Poindexter of the State of Washington, will tell from the same platform the people of South Dakota the nature of their constructive views.

Taking up the questions propounded last week by a committee of Ellispport ladies (that is, the questions they did not answer for themselves) the New-Record will attempt a reply in so far as it is possible at this time.

First—We have no authentic information regarding a plan to extend paving from the main

highway to Portage dock.

Second—The larger part of the sum mentioned was used on the North End road. It is not necessary to go into details. Heavy traffic and adverse weather conditions put the road out of commission in the making.

Third—We are informed that the permanency of the North End ferry is assured.

Fourth—Anyone who has made the trip to the creamery must concede that this road is a disgrace a reflection on those responsible. Just here we may be pardoned for saying that the system under which county road work is done is rotten to the core. At another time we shall take occasion to puncture it with the kind of publicity it deserves.

Sixth—Water area is not assessable. Road District Assessments are distributed pro rata.

Sixth—The work would start at the North End.

Seventh—Assessments could run for a period of ten years.

Eighth—If we can get definite information as to date petition will be presented, our readers will be notified. However, there will of necessity, in compliance with the law in such cases, be a date announced for hearing protests.

Ninth—The valuations represented in a petition carry more weight than a long list of signatures.

FREDERICK & NELSON

FIFTH AVENUE AND PINE STREET SEATTLE

This newspaper will gladly publish short communications dealing with the paving problem, but controversy must not enter in. Be brief.

It is stated that a Michigan congressman has introduced a bill appropriating 6 million dollars for an asylum for the feebleminded in the district of Columbia. If the Michigan voters let Newberry get away with the senatorship on the ground that the government has no right to interfere with local elections they will deserve a bigger asylum than that.

The Wyoming legislature has ratified the woman suffrage amendment to the U. S. Constitution. Wyoming is the twenty-eighth state to ratify.

Charles W. Eliot, America's most eminent educator, says: "The adoption of the metric system by the U. S. America would greatly reduce labor in trades because of the thro decimal quality of the system, and facilitate teaching of mathematics and applied sciences in schools."

The investment at Pearl Harbor, the principal naval base of the Hawaiian Islands, of \$50,000 for an Army and Navy Y. M. C. A. building, has just been announced by F. A. McCarl, executive secretary of the Western Department, National War Work Council, on his return from Honolulu. While there he inspected the various activities of the Y. M. C. A. in the Islands and he reports the work is in a very flourishing condition.

A farmer who has been keeping accounts for some time, says: "I have tried to keep a set of books by a good many different systems, but the simple farm account book put out by the State College at Pullman is the first good book I have ever gotten hold of."

Peas usually yield 15 to 20 per cent more pounds of grain than do oats. Peas add \$20 worth of nitrogen to each acre of land. Pea straw is better stock feed than wheat straw or oat straw, having 400 per cent more protein and 12 per cent more carbohydrates than has wheat straw. Peas usually sell for twice the price of oats, and they can be saved when the weather is too wet to save bound oats or wheat. Peas are no more work at threshing time than is loose oats or wheat. W. H. Kauffman, R. F. D. No. 2, Bellingham, Wash., has some free circulars that will be very interesting to every farmer. The agricultural colleges of Washington, Idaho and Oregon are urging farmers to raise more peas, and Mr. Kauffman's circular will be helpful to every wideawake farmer.

TREATY AGAIN IS BEFORE SENATE

Peace Pact Brought up For Consideration Monday; Bitter Fight Forecast.

Washington.—The peace treaty, which has lain in a parliamentary pigeonhole since November 19, while a basis for its ratification was unsuccessfully sought in private negotiations, was brought formally before the senate again Monday.

Although prompt agreement is expected generally on many of the minor points at issue, a long and bitter contest is forecast over article 16 and perhaps a few other treaty provisions. The leaders on both sides profess to see some hope of ratification, but other senators believe the deadlock certain to continue until the controversy has been fought out in the presidential campaign.

Besides the outstanding issues of the treaty fight the most prominent subject of discussion among senators was the letter of President Wilson laid before the democratic conference and made public by Senator Hitchcock. The president's renewed declaration of opposition to some of the language of the republican reservations were interpreted in different ways.

Some declared the letter an uncompromising reiteration of the stand taken by the president on the eve of the November ratification vote and asserted that its publication had widened the breach between the democratic and republican forces. Others, professing to see new evidences of concession in the president's words, predicted an opposite effect.

Although the president's letter was written before publication of the statement of Viscount Grey regarding reservations, in some quarters it was suggested that the letter would not have been permitted to become public if the British statesman's views had resulted in any change in the president's position.

TROOPS REPULSE KENTUCKY MOB

Lexington, Ky.—Four persons were killed and fifteen were wounded here when a mob intent upon lynching William Lockett, a negro, who confessed to the murder of 19-year-old Geneva Hardman, charged the court house during Lockett's trial and was fired upon by police and state troops.

Two women were reported to be among those shot by the state troops. The clash with the soldiers held off the mob while the authorities managed to slip the negro away to a place of safety.

Great trouble was caused by the shooting and there were mutterings of further trouble.

While the mob, the ring-leaders of which carried a rope, was attempting to get into the court house to get Lockett, a jury found him guilty of first degree murder and a minute or two later the negro was sentenced to die in the electric chair March 11.

LANE TO RETIRE MARCH 1

Both President and Secretary Express Regret at Serving Relations.

Washington.—President Wilson accepted, effective March 1, the resignation of Franklin K. Lane, for nearly seven years secretary of the interior.

Letters exchanged between the president and Secretary Lane, which were made public, indicate that good feeling marked the retirement. Both the president and Lane expressed regret. Lane resigned, it is understood because it was necessary for him to earn more money than a cabinet officer's salary.

Among those being mentioned are Alexander Vogelsang, first assistant to Lane; James Hawley of Boise, former governor of Idaho, and ex-Senator John F. Shafer of Colorado. Many Western senators, it is understood, favor Vogelsang.

KOREANS ATTACK JAP POST

Movement Said to Be Initiation of a Big Rebellion.

Washington.—Official dispatches received here said a force of 2000 Koreans, armed principally with equipment furnished by the bolsheviks, crossed into northern Korea from Kirin, Manchuria, and attacked a Japanese post of 700 men at night, killed 300 of them and routed the remainder.

According to these dispatches the attack was the initiation of an active rebellion in Korea. It was described as the "beginning of a tremendous affair."

Lloyd George Less Harsh on Germans.

London.—Premier Lloyd George is reported to favor a substantial modification of the list of Germans whose surrender the allies demand, the Westminster Gazette says.

FRANKLIN K. LANE

Franklin K. Lane, secretary of the interior, whose resignation has been accepted by President Wilson.

EVIDENCE AGAINST I. W. W. OUTLINED

Montesano, Wash.—The evidence on which the prosecution will attempt to prove the guilt of the 11 defendants accused of murder in connection with the Amistice day shooting at Centralia was outlined by Herman Allen, prosecuting attorney of Lewis county, in his opening statement to the jury.

That the tragedy was the fruition of a conspiracy laid weeks in advance, and that the firing upon the ex-service men was not in self-defense, but was a premeditated, murderous assault, is what the state has declared it will produce many witnesses to substantiate.

The plea of the defendants, it has been announced, is self-defense. An effort will be made to show that members of the American Legion "rushed" the I. W. W. hall in Centralia before the radicals fired a shot. The state, in its opening outlines of the prosecution's case, denied this and declared that the veterans in the parade were in line and marking time when rifle bullets thudded into the bodies of Grimm and other comrades.

If all witnesses named by the state and by the defense actually are called to testify, the period of the trial will stretch away beyond prophecy. Present estimates are that the case will not go to the jury within six weeks, and possibly not for two months. The state has named 260 witnesses while the defense has stated that it will summon more than 100.

BRIEF GENERAL NEWS

E. P. Ripley, for many years president of the Santa Fe, died at Santa Barbara, Cal.

Two sets of delegates were elected to the Chicago national convention by the South Carolina republican state convention.

Money in circulation in the United States on February amounted to \$5,846,000,000, an increase of \$129,000,000 in one year, the treasury department announced.

Oklahoma delegates elected to the national democratic convention at San Francisco were pledged to support Senator Robert L. Owen of Oklahoma for the democratic presidential nomination.

Earl Burgess, a motion picture actor, was instantly killed near Los Angeles when he fell 700 feet from an airplane on which he was performing in the making of a comedy.

James Perry and Frank Johnson, representatives of the Y. M. C. A., were the Americans killed in the recently reported attack by Turkish brigands on a convoy of American relief supplies near Aintav in Syria, the state department was advised.

Conditions in Mexico were described as "intolerable" by General Robert Lee Howze, commander of the El Paso district, when he testified before the senate sub-committee investigating the Mexican situation at El Paso, Tex.

Hines Preparing to Return Railways.

Washington.—Reorganization of the railroad administration for its work as a government liquidating agent in preparing for a return of the roads to their owners on March 1 was begun today by Director General Hines. The first steps were creation of a division of liquidating claims, and the abolition of the division of capital expenditures, effective February 15.

Railroad Wage Confab to Go On.

Washington.—Conference between railroad administration officials and heads of railroad employees' unions over wage demands of the workers was resumed Monday with the hope that this week will see some definite conclusion.

SHE MAY BE FIRST LADY OF THE LAND

A new portrait of Mrs. Herbert Hoover, wife of the former food dictator and who is now enjoying one of the noisiest presidential booms heard so far, inasmuch as Hoover does not appear popular with either Democrats or Republican party leaders, it is hinted he might lead an independent party on a "business platform."

FARM POULTRY

VENTILATION OF HEN HOUSE

For Success With Poultry There Must Be an Abundance of Fresh Air Without Drafts.

Poultry raisers have come to realize that the ventilation of the poultry house is a very important matter. There must be an abundance of fresh air without extreme heat or cold, and without dampness and draft. Proper conditions cannot be had with the makeshift, wrongly used ventilators frequently employed.

One method, which has proved successful is to use the straw air strainer. A second ceiling is built about six inches below the regular ceiling, in the form of a latticed framework. A trapdoor in the center of this makes it possible to change the straw which is packed between the lattice and the original ceiling. Vents, or wide, low

straw also absorbs a great deal of moisture.

Another method, in rather wide use, is to cover an ordinary window frame with muslin, instead of using glass. An improvement on this type of ventilator is shown at the right of the drawing. A light wooden frame covered with muslin is hung from a wire, which serves as a track. The frame can thus be moved sideways over or away from the window opening. Screw eyes on the frame allow it to slide easily over the wire. The wire itself may be fastened either to screw eyes or over blocks at either end. To the left is shown a similar frame, moving up and down. In this case it will be necessary to arrange some means of holding the frame at the height desired. Either the pegs that fit into holes in the wall, or a hook fitting into screw eyes, placed at various heights in the wall, may be used for this purpose.

The advantage of the air strainer over muslin-covered frames is that the latter have to be adjusted accurately to the weather, while the air strainer requires no attention whatever.—J. T. Bartlett, Fort Collins, Colo., in Popular Mechanics Magazine.

COVER WINDOW WITH BURLAP

Most Excellent Plan to Keep Out Wind at Night While Fowls Are Roosting.

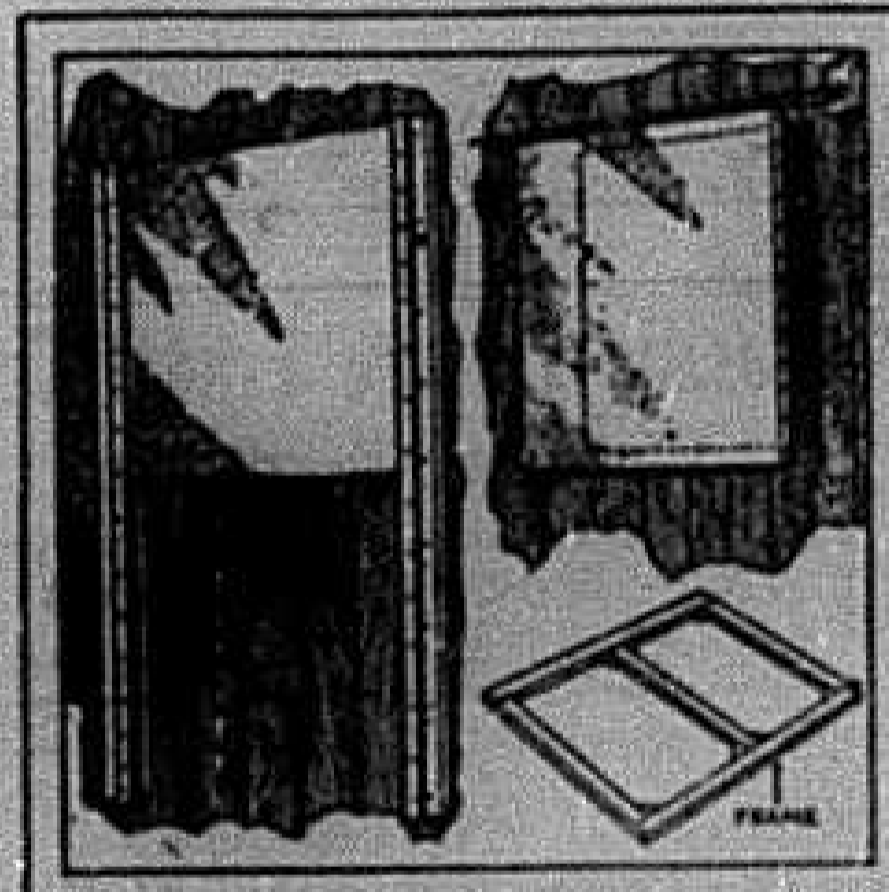

If the poultry house is narrow so that the wind blows in through the open windows on the fowls on the roost, put a piece of burlap over the open space at night, but do not close the windows until the weather gets cold.

FATTEN FOWLS FOR MARKET

Poultry Will Sell for Higher Price Per Pound Because of Increase in Weight.

If any stock is to be sent to market be sure that it is fattened well before it is shipped. It will pay to do this because the poultry will sell for a higher price per pound and it will weigh more.

Leghorns produce eggs more cheaply than hens of the general purpose breeds.

Muslin Ventilators Can Be Used in the Poultry House to Secure Abundance of Air Without Either Drafts or Extremes of Temperature.

openings, must be cut in the side of the house as close under the eaves as possible. The air, entering at these vents, filters through the straw, and thus into the poultry house. No drafts are possible, and the temperature is kept very nearly constant. The

Poor Lou is Rich Lou Now—a Multi-Millionaire

Lo! poor Lou no longer. For poor Lou—of the Osage Indian tribe at least—is the richest man—per capita—in the world. This group of multi-millionaires—nine representatives of the Osage Indians from Oklahoma—visited Washington recently, asking that the trust period on their lands be extended. Last year over twelve million dollars in royalties as a bonus on their oil and gas rights was paid to members of the Osage tribe. There are about 2200 Osages, each man, woman and child receiving annually about \$4000. E. B. Marrett, assistant commissioner, and J. George Wright, superintendent of the Osage nation, are standing in the front row of this photo.

PORTAGE

Miss Ethie Marsh spent the week end at home.

Mrs. A. J. Marsh was a visitor in Burton on Tuesday.

Mrs. E. M. Knott spent the week end at "Birchall Farm."

Claude Bibbins has been very ill, but at his writing is reported to be able to sit up.

Ruth Aldrich spent Friday and Saturday the guest of her sister, Mrs. W. T. Sherman.

Mr. and Mrs. I. M. Rushton have returned home after a visit of three weeks in Seattle.

Mrs. F. A. White is reported to have been on the sick list, but is now slightly improved.

Miss Nellie Kellogg of Tacoma has been home for the past ten days suffering from tonsillitis.

Miss Jeanette Fenton and Margaret Cristman spent the week end at their respective homes.

Miss Mildred and Mr. Raynold Mattson spent the week end visiting the home folks in Portage.

Mr. and Mrs. A. I. Beall spent the week end with Mrs. Beall's parents, Mr. and Mrs. A. D. Kingsbury.

Miss Dorothy Risser returned to her home in Bremerton after spending the week visiting with friends and relatives here.

Al Kellogg, prompt auto service. Day and night. Phone Black 832, Portage.

Mr. E. N. Harrison, who recently purchased the T. A. Boring property, is preparing to build a tire repair shop on the waterfront north of Portage on the boulevard. The piling has already been placed, and in a short time Mr. Harrison will begin the erection of the building. This will be quite an addition to Portage.

CENTER

Wesley Sherman is having a tussle with the grip.

Mr. Geo. Dowd was a visitor on the Island over Sunday.

Mrs. H. F. Davis has been on the invalid list the past few days.

Mrs. W. Zimmerman has been very ill the past week, also her daughter, Mrs. Dewey, who was here on a visit. Mr. Dewey was sent for.

Mr. and Mrs. Albert Therkelsen are receiving congratulations over the arrival of a daughter. Mrs. Therkelsen is in Tacoma and is reported to be doing nicely.

The Camulos Club met at the home of Mrs. A. F. Faulk. It was voted to join the Federation of Woman's Clubs, also to give a sweet pea show this year, and as a suggestion everyone was requested to plant their peas the last week in February so they would be ready at the same time. After

Read the Classified ads.

the program the hostess served a fine luncheon.

Friends and neighbors gathered at the home of Mr. and Mrs. Clayton Williams last Saturday evening as a surprise to celebrate Mrs. Williams' birthday anniversary. Five hundred was played at three tables until a late hour, when cakes, sandwiches and coffee, which had been brought for the occasion, were set out, and to which all did full justice. The company took leave at a late hour wishing Mrs. Williams many happy anniversaries.

SO. HEIGHTS

Mr. Fred Pugh has a fine, new Ford roadster.

Miss Smith made a flying visit home last Sunday.

Mr. Will Ely and family were joyriding on the Island last Sunday.

Mr. and Mrs. Geo. Smith spent several days last week with Mrs. Smith's aunt, Mrs. Jenkins.

Mr. Holmes has had several compliments on the fine job of pruning and spraying he has just completed in his orchard.

Ross Bittinger and Bruce Hall spent the week end with Ross' folks here. He is working for the Milwaukee R. R. in Tacoma.

Neighbors will not be unprepared for the announcement of the marriage of Miss Carolyn Berry and Mr. Otis Gaddey, which took place at Walla Walla last Saturday.

"I see the newspapers are publishing a great deal about you just now."

"Yes," answered Senator Sogham. "That's one little advantage about politics. It's about the only business I know of in which a man can depend almost entirely on free

MARKETING CROPS IS MEREDITH'S HOBBY

"Getting crops to market without lost motion or costs" is to be the policy of his department, says Edwin T. Meredith of Des Moines, Ia., the new secretary of agriculture in President Wilson's cabinet. This is a new and recent picture of Secretary Meredith.

LISABEULA

Miss Allee Bullard is on the sick list this week.

Mr. Otto Cross and family are moving to Kent.

Miss Salmonson of Seattle is a guest at the Hiensch home.

Mr. Pitge has bought the Lorcee place, where Mr. Sutton lives.

Mrs. Daniels of Tacoma is visiting her parents, Mr. and Mrs. Sullivan.

Mr. Morrissey has been called to Utah to attend the funeral of his brother-in-law.

The Art and Embroidery Club will meet with Mrs. Frank Manker on Thursday, Feb. 19th.

Mrs. Laura Shattuck and two children are making a two-weeks' visit with the home folks, Mr. and Mrs. H. Steinforth.

Mrs. Christiansen is taking Mrs. W. Cross' place on the boat as cook temporarily, as Mrs. Cross' daughter-Olive is ill in Seattle and she is caring for her.

Miss Mary Brink, Miss Pauline Hiensch and Roy Kuehne came over from the city on Saturday for a visit with the home folks over Sunday.

Mr. Jenson is putting up a water tank, and also pulling out a lot of old fruit trees—going to set out new ones. He also plans to tear down his old house and rebuild, and otherwise improve his property.

Mr. Tasher's brother, who came here from California, thinking his health would improve, has gone to San Diego, Cal., with the hope that the dry climate will give him relief from a severe attack of asthma.

Mr. and Mrs. Earl Ryder from Altamont, S. D., with their mother, Mrs. Given, and granddaughter, Georgiana, from McCleary, were guests of Mr. and Mrs. Charles Billard last week.

Mr. Sam Bittinger is using his stump puller on the Manker place. With the blasting and the stump-pulling it looks as though it would be almost impossible to get the stumps burned.

was a grand success, due to the fine weather. A large crowd of young people were present, also some of the older folks, who came down to see how everything was going on. We would like to have more of them attend and help make the evening merry.

The music was furnished by Mr. Brown, who brought his large \$450 Edison phonograph, which was heard with great clearness all over the room. He has very generously offered us the use of his machine whenever we need it.

A light lunch was served at 12 o'clock, and a "Home, Sweet Home" waltz was played about 1.30, after which couples were seen wending their way, but happy, way home in the beautiful moonlight.

The KITCHEN CABINET

SEASONABLE GOOD THINGS.

Our thoughts determine our acts and therefore our lives, as well as the influence of our lives upon all about us, either by way of good or by way of hindrance, with absolute precision.—Ralph Waldo Trine.

At this season sweetmeats are very popular. The following is wholesome and not hard to prepare:

Nut, Date and Chocolate Sweetmeat—Heat four tablespoonfuls of honey or maple syrup to the boiling point; add half a pound of the slightly sweet dipping chocolate and let stand over hot water until the chocolate is soft; add one package of dates, cut from the seeds in small even pieces, half a cupful of blanched almonds, cut in shreds and one teaspoonful of vanilla. Mix well with a wooden spoon to blend thoroughly. Have ready some biscuit tins or a brick mold lined with parchment paper. Press the mixture into the mold and cover with paper, then lay on a weight. Let stand six hours to ripen.

Fruit Cup—For five glasses take one orange, three bananas, half a package of dates, one cupful of white grapes, measured after they are skinned, cut in halves and seeded, 12 pistachio nuts, the juice of half a lemon and three-fourths of a cupful of cream. Remove all the peeling and membrane from the orange, separate into sections and cut each in halves crosswise. Peel the banana, scrape to remove the threads, cut in thin, even slices and squeeze over them the juice of half a lemon. Pour boiling water over the dates, drain and place on a dish to dry in a hot oven, then remove the pits and cut in sections. Mix all the fruit together, then dispose in glasses, pouring the fruit syrup over it. Whip the cream and pipe it above the fruit; serve very cold.

Prune and Cottage Cheese Salad—Soak choice prunes over night; until tender. When cold cut open, remove the stones, and cut the prunes in smooth even pieces. Press cottage cheese for an hour or longer, then cut in half-inch cubes. For each serving beat two-tablespoonfuls of thick prune juice, a teaspoonful each of lemon juice and sugar or honey and two tablespoonfuls of olive oil until thick. Place a layer of the prunes on lettuce hearts, the cheese above. Pour over the dressing and serve at once.

WASHINGTON STATE NEWS OF INTEREST

Important Occurrences of Past Week Briefly Compiled for Our Readers.

A power farming machinery exhibit will be held at Spokane January 21 to 24.

Walla-Walla high school students cleared \$1000 through athletics up to the first of the year.

Samuel Harowitz nearly died at the Aberdeen police headquarters from the effects of drinking moonshine whisky.

Fire caused by his trying to fill a lighted gasoline lamp totally destroyed the home of John Hopper at Clequato.

Another rabbit drive has been planned at Burbank for Sunday, January 25, to clean up the rabbits which were left from the last two drives.

Orders for the discontinuance of the twelfth division headquarters at Spokane of the reserve officers' training corps have been received.

The construction of a grain elevator to have a capacity of 1,000,000 bushels has been started on the property of the Centennial Mill company at Spokane.

The Walla Walla Gardeners' association handled last year more than \$500,000 worth of produce, and returns to growers were declared very satisfactory.

New cane sugar will retail for 18 1/2 cents a pound in Seattle, the King county fair-price committee has decided. Later the price may touch 19 1/2 cents.

Farmers of Grays Harbor county are arranging to plant increased acreage to berries on account of the establishing of a fruit and vegetable cannery at Montesano.

Lake Quinalt school district, which has one of the most modern concrete school buildings in Grays Harbor county, is debating the matter of a cottage for the teachers.

Twenty-six farm bureaus, to be consolidated into one large county farmers' organization, will be organized in Spokane county early in January, according to County Agriculturist J. H. Shinn.

The Lewis county commissioners recently appropriated \$35,000 to be used to protect the bank of Lewis river at Robinson's Bend, about two miles east of Woodland, which will be done by rip-rap work.

By raising the best potatoes in Clarke county, Esther Touinen, 12 years old, and living in the Lewis river district, won a prize of \$30, which was awarded at the potato day celebration at Hoeklipson.

John Knelp, 17 years old, confessed slayer of Nazarene Bracon on November 3 of last year, was convicted of murder in the first degree at Tacoma. The jury recommended a sentence without the death penalty.

The industrial insurance commission has announced the appointment of John W. Gordon of Seattle, as chief claim adjuster. Gordon is named to succeed R. M. Fuller, whose resignation the commission called for last week.

Announcement that the international barbers' union has appropriated \$3000 and has detailed an organizer to fight the "open shop" movement among barber shops of Spokane, was made by officials of the local union.

The first definite move to relieve the congested living conditions in Wenatchee has been made by the formation of a company which will erect a modern apartment house of 35 apartments at a cost of approximately \$100,000.

The 10-cent street car fare, which the Tacoma street railway desired to put into effect Sunday, was suspended for 60 days by the state public service commission at Olympia. The higher fare cannot come into effect before March 18.

Robert McAdam and Leo Burkshire, I. W. W., found guilty of violating the criminal syndicalism law by a jury in the superior court of Clarke county, were sentenced by Judge H. R. Back to serve from one to ten years in the state reformatory at Monroe.

The interstate commerce commission has notified the public service commission of this state that time to file objections to the findings favoring an Oregon freight rate differential, made by Henry Therbel, interstate commission examiner, had been extended to February 10.

Membership in the I. W. W. was declared a felony by the verdict of a Thurston county jury at Olympia, when Frank Hastings and Elias Matson, members of the organization, were found guilty under the criminal syndicalism act for mere membership in the anarchistic order.

The Northwest and California Typographical associations will hold a combined conference in Spokane April 12-15 to form a new organization to be known as the Pacific Slope Typographical conference, according to L. W. Watson of the Spokane local. The new Western federation will include Idaho, Washington, Oregon, British Columbia and California.

The annual show of the Spokane Poultry Breeders' association will be held in Spokane January 26 to 31. It is expected that approximately 1000 prize birds will be on exhibition.

Isaac Pineus, formerly one of the largest hop growers and merchants in the nation, died at Tacoma at the age of 88. He at one time owned hop yards in various parts of the state and operated vessels out of Puget sound.

The city of Seattle has filed formal protest with the public service commission against proposed increase in gas rates by the Seattle Lighting company. The city alleges the rates are unfair, unjust and unreasonable and would impose an increase totaling \$300,000 upon consumers.

According to statistics compiled by Deputy Horticultural Inspector P. S. Darlington, a total of 11,750 tons of fruit went into byproducts during the last season in the Wenatchee district. Of this amount 6750 tons were utilized by the byproduct factories in the district and 5000 tons were shipped out.

Protest to congress against "the wholesale campaign of indiscriminate arrests and deportations for presumed violations of the espionage law" is contained in a resolution adopted by the Coast district convention at Tacoma of delegates representing 150,000 metal trades union workers of the Pacific coast.

J. A. Taylor of Seattle, a machinist, was elected president of the district council of the metal trades union at the final day's session of the annual convention of the district council which met at Tacoma last week. Other officers elected were: P. J. Brady, Portland, first vice-president; F. C. Miller, San Francisco, second vice-president; J. W. Rickett of Oakland, secretary-treasurer.

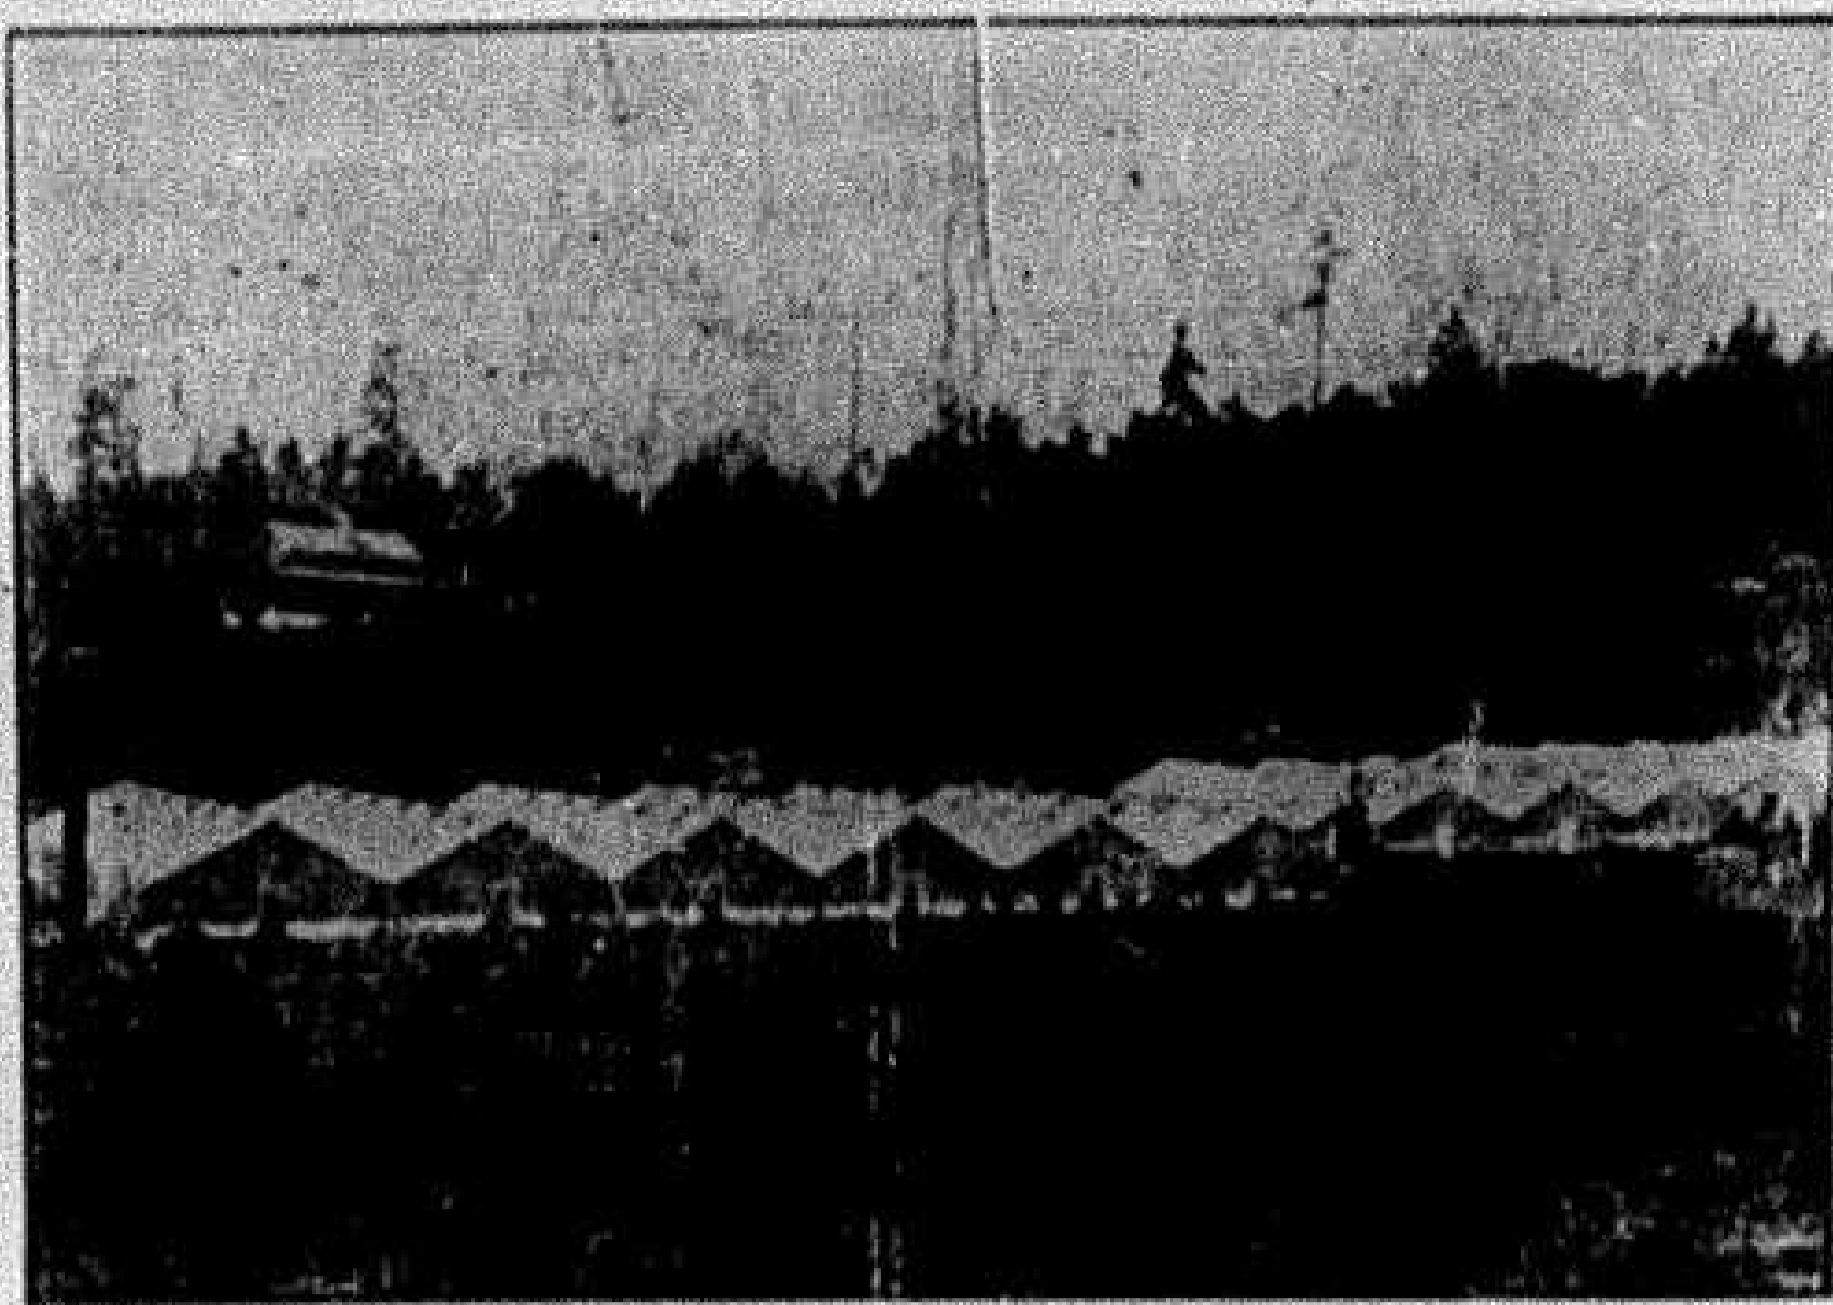

Imprisonment for life was the sentence meted out at Everett to Joseph Morton, 15-year-old Stanwood boy, by a jury which found him guilty of murder in connection with the shooting of Lee Linton, an Everett taxicab driver, November 19, last. Isom White, 19, Morton's companion, who it was alleged actually shot Linton, was found guilty of the charge and sentenced to be hanged.

Report of the commission of engineers appointed by the state reclamation board to consider plans for the construction of the Methow-Okanogan irrigation project has been submitted to the board. The commission comprises A. J. Wiley of Boise, Idaho; D. C. Henry of Portland, both of the federal reclamation service, and O. L. Waller, dean of the engineering department of Washington state college. The commission estimates construction cost of wooden flumes at \$254 an acre, metal flumes \$279 an acre, and reinforced concrete construction at \$304 an acre. The construction work contemplates 14 miles of tunnel and six miles of main canal.

William Bouck, master of the Washington state grange and head of the All-American Farmer Labor Co-operative association, has called a meeting of western farm organizations to be held in Vancouver March 2 and 3. Mr. Bouck said Vancouver was chosen as it is a central point in the Pacific northwest from which most of the 1500 expected delegates are to come. All farm states west of the Mississippi are expected to send delegates. Representatives are expected from the railroad brotherhoods, labor unions affiliated with the American Federation of Labor, co-operative and farm associations and state grange, American Society of Equity, Nebraska Farmers' union and others.

Acting Governor I. M. Howell, complying with the suggestion of the Law and Order union of New York state, and following the action already taken by governors of 26 states, designated Sunday, January 25, as law and order Sunday in the churches of Washington, and the week following as law and order week in the schools of the state. Request has been made by the acting governor that on Sunday, January 25, the people of the state pay tribute to the services rendered by American women in the army nurse corps, and that the suggestion made by Governor Harding of Iowa that each person wear a rose on that day as an evidence of appreciation of the work of the nurses in the war be observed in this state.

Plans for the formation of a non-profit, co-operative association for the marketing of wheat, eliminating speculation and stabilizing the wheat price, completed at the wheat marketing conference held in Spokane are being submitted to the wheat growers of the Walla Walla valley by N. D. Atkinson, state representative, of Watsburg, and W. J. McLean, secretary of the Walla Walla Farmers' union, who attended the Spokane conference. All members of the association must sign an agreement to sell and deliver to the association all of the wheat grown by him at any place in Washington during the years 1920, 1921, 1922, 1923, 1924 and 1925, excepting seed and feed wheat grown for such. This wheat is to be sold by the association and the premium returned to the grower. The grain is to be sold at the best price obtainable and not more than 1 per cent of the total of the sale is to be deducted for the cost of operation.

ALL the news all the time in The News Record.

SURPRISE FOR "DESERT RAT"

Veteran Prospector Astonished at First Experience With Moving Picture Methods.

A real "desert rat," an old prospector and a rare individual in these modern times, swayed into Victorville, Cal., where a motion picture company was at work. A ranch house had been built, more than 100 sagebrush, transplanted to make it look as if it were in the vicinity of the desert, and all the old tin cans in the town collected to give atmosphere to the cookhouse. The old desert rat accosted the movie director in front of the dilapidated place. "This your farm?" he asked. The director said it was. "Any grab about?" The picture man pointed to the rear of the prop movie house and the visitor followed. When he reached the corner of the house and

saw only two walls standing his mouth sagged with amazement. The players were equally surprised when the old desert rat told them he had never seen a movie company at work or knew that the few houses he had seen in motion pictures were of the fake variety.

The parliament committee on dormant bank balances after an exhaustive inquiry, has uncovered \$32,000,000 lying unclaimed in British banks, of which \$12,000,000 belongs to untraceable persons and therefore will be turned into the government treasury to help pay the nation's debt. A far greater amount was expected when the inquiry began. One remarkable fact is that there is more unclaimed wealth in Scottish banks than in those of England, which disproves the reputation that the Scot has of looking after the shillings.

WASHINGTON STATE NEWS OF INTEREST

Important Occurrences of Past Week Briefly Compiled for Our Readers.

The influenza epidemic is decreasing in Walla Walla.

Of the 36 births at Centralia during January, 14 were females.

The quarterly convention of the Puget Sound Society of Friends was held in Seattle.

Influenza cases are decreasing in number in Seattle, Dr. H. M. Reed, city health commissioner, announced.

Rev. Jeremiah Dick, for 16 years Sunday school missionary of the Congregational church, is dead at Seattle.

A total of 1369 Vancouver voters have joined the Triple alliance, according to an official of the central labor council.

Investigations in the alleged irregularities in the Pacific coast shipbuilding program have been resumed at Seattle before a federal grand jury.

Fire destroyed the Thompson-Ford Lumber company sawmill at Kelso. The loss is estimated at between \$40,000 and \$50,000, with \$20,000 insurance.

Four famous guns operated by the 146th field artillery, recruited mainly from Washington, Oregon and Idaho, have been presented to Walla Walla by the war department.

Shipments to date from Yakima valley points, with estimates of 2699 cars of fruit yet remaining in storage, indicate a total production of 16,137 cars last season.

F. E. Waterhouse, 28, bank clerk, within half an hour after his arrest at Seattle, pleaded guilty to an indictment charging him with embezzling \$3500 from his employers.

A record price for wheat was paid at Walla Walla, when Joe Grote, a Eureka farmer, bought 5000 bushels of Early Bart for seeding. Grote paid \$5.50 a bushel for the grain.

The school teachers of Pasco have requested that they be given a bonus in addition to their regular salaries. The bonus asked for approximates 20 per cent of their contract salaries.

The receiver of the First International bank of South Bend, which failed three years ago, has declared a dividend of 25 per cent, and asserts that another one will be declared shortly.

The Berg-Griggs company of Tacoma was awarded a contract by the state board of control for construction of a central heating plant at the state industrial school for girls at Grand Mound for \$7990.

A contest of the will of J. D. Sherwood of Spokane, who was killed in a California automobile accident together with his wife, has been filed by a sister of the wife, who claims that the husband died first.

Two grain elevators and warehouses, with a capacity of 300,000 bushels each, will be erected at Moscow, Idaho, and Colfax, Wash., this summer by Alloway & George, Spokane contractors, according to plans made public.

Dr. F. E. Smith, chief dairy and fuel inspector of Seattle, was elected president of the Pacific Northwest Association of Dairy and Milk Inspectors at the eighth annual convention of that organization which was held in Portland, Or.

The Kelso city council has entered into an agreement with D. B. Fleck, owner of the Kelso water system, subject to the approval of the voters of the city, by which the city will purchase the Kelso Water company system for \$40,000.

A huge electric power house driven by water dammed on the north fork of the Lewis river, in Clarke county, and to cost possibly \$5,000,000, is to be built by the Northwestern Electric company of Portland, if rumors to that effect are true.

The board of Lincoln county commissioners has granted a franchise to the Washington Water Power company for an extension of their power transmission line nine miles northwest of Wilbur. The new line will supply light and power in a number of farm homes in the territory.

Pending favorable decision by the courts, stockholders of the Fuyallup and Sumner Fruitgrowers' association will distribute a \$50,000 melon which with interest totals \$64,000. For the 1919 season, returns to the growers amounted to \$779,740 at a cost of operation of \$7218.

The state sheriffs' association, in session at Walla Walla, reelected George Reid of Spokane president and elected John L. Stringer of Seattle vice-president; Clarence E. Long of Spokane, secretary-treasurer. The next meeting will be held in Wenatchee, October 5 to 7, 1920.

A consignment of half a million fish eggs, eastern brook trout, was received by the Clarke county game commission. These eggs will be hatched at the hatchery on Cold creek, and implanted in the streams of the county by William Thompson, game warden, when the fish have reached three inches in length.

How great the damage done to fruit trees in Clarke county this winter by the cold weather, has not been learned, but the government is sending an expert, Professor C. A. Reed, of the department of agriculture, bureau of plant industry, to the county, to give advice to the orchardists and make a survey of damage.

Bids by sheepmen at Fort Simons for lease of Yakima reservation ranges during the coming season showed increases of 100 to 150 per cent over the bids made a year ago. In many cases several bids were offered for one range. The high bids reached \$2.19 per ewe and lamb for summer range and \$2.15 for winter range.

C. B. Hopkins, pioneer telephone man of Washington, died at the Mayo hospital, Rochester, Minn., where he had undergone an operation. Mr Hopkins was 65 years old and had been more or less intimately connected with the telephone business throughout his entire career. The first long-distance telephone in the northwest was built by Mr. Hopkins.

Governor Hart of Washington will be asked to call a special session of the legislature to draw up a constitutional amendment to be submitted to the people providing for a change in methods of taxation in the evergreen state, according to the decision of the executive committee of the Interstate Realty association, which held a two days' conference at Portland.

Five hundred employes in the locomotive department of the Northern Pacific shops at South Tacoma quit work at 4:30 Friday afternoon at the end of eight hours, disregarding the order of Director-General Hines establishing a nine-hour day. Their rejection of time and a half for an extra hour's work was the result of a vote taken by the machinists, blacksmiths and boiler makers.

Negligence on the part of the city of Seattle, resulting in damages to the Chicago, Milwaukee & St. Paul railway in the amount of \$79,369, is alleged in a complaint filed in federal court by the United States railroad administration. The complaint charges that through the impounding by the city of waters in the Cedar river watershed, railroad tracks were flooded, bridges were washed out and service delayed, especially in December, 1918.

The number of acres of state land under lease in Washington has practically been doubled during the last six years. It was shown by a report just compiled by State Land Commissioner Clark V. Savidge. At present 721,010 acres of state land are under lease as compared with 483,319 acres in 1914. This showing is made despite the fact that thousands of acres formerly under lease have been sold at the expiration of the leases because of the increased demand for grazing and farming land.

With 1,896,900 head of livestock in the state on January, 1920, Washington experienced a decrease of 58,000 head as compared with the 1,955,000 head of one year previous. The report just issued by G. S. Ray, field agent of the federal bureau of crop estimates, indicates the aggregate value of all stock in the state to be \$78,200,000, or an increase of more than \$3,500,000 over last year's valuation of \$74,677,000. This increase is due largely to the higher average values of cattle as compared with last year.

The Washington public service commission wired Senator Cummings, Congressman Each and members of the congressional delegation from this state a vigorous protest against insertion in the pending railroad legislation of a provision submitted by the committee of railroad executives conferring on the interstate commerce commission authority to suspend intrastate rates upon an informal showing by the carrier and to substitute rates ordered by the interstate commerce commission before any formal hearing is allowed.

Active campaigning in support of the Carlyon bill for paving state highways will be organized and under way within the coming two weeks under supervision of a committee appointed by J. J. Donovan, president of Washington Good Roads association. The Carlyon bill under which it is proposed to do this work was submitted to a referendum at the general election this fall by the 1919 legislature. It contemplates bonding automobile license revenue collected by the state for \$30,000,000 for a period of 20 years, the entire proceeds to be devoted to paving.

Unfavorable report has been filed by Lieutenant-Colonel J. A. Woodruff, district engineer of the war department, on the proposed construction of a waterway connecting the waters of Puget Sound with Grays Harbor with a view to securing a channel suitable for navigation. The principal grounds on which the adverse findings are based are that there is insufficient water available without construction of storage reservoirs and a long feeder canal, with which to operate the proposed canal, and that the cost of the project would not be justified by the limited amount of commerce that the canal when completed might reasonably be expected to serve.

Your Teeth and You

You needn't be afraid of pain if you have your teeth cared for by dentists using the

E. R. Parker System.

You needn't lose much time, for under this system your work will be done with fewer visits, especial attention being given to out-of-town patients.

You needn't have doubts about being satisfied, for Parker System dentists are just as particular as you are.

You needn't worry about price, for it will be as low as good dentistry can possibly be done for.

But you ought to be afraid of pain, and that is delgy. The longer you neglect your teeth, the worse they get. Bad teeth never grow better unless good dentists help them.

Consultation and advice free. There are twenty-four E. R. Parker System offices, the nearest being at

2nd Ave. and Madison St., Seattle Argonne Bldg., Pacific Ave. & 13th St., Tacoma

DON'T FORGET US

When you need anything in the line of neat and attractive Printing.

"There is a house near ours which has more than 200 varieties of creepers, and it is a crying nuisance."

"Why, isn't it decorative?"

"No; it's an infant asylum."

JUDGE SHEEP'S AGE BY ITS TEETH

Judging a sheep's age by its teeth is a new trick the Department of Agriculture has introduced to stockmen. Judging a horse's age by the length of his molars has long been a trader's trick. This photo was taken on the government's experimental farm at Beltsville, Md.

Let Us Supply Your Wants---

We have in stock a fine line of the following goods:

- Fancy Groceries, Flour,

CHURCH ANNOUNCEMENTS

Presbyterian

The Sunday school last Sunday had a large attendance. It is hoped the interest will continue. The theme in the series on the subject of the Holy Ghost at the morning service was appreciatively received. Several have expressed of being helped.

Miss Jacobs led a thoughtful C. E. meeting in the evening.

The regular services next Sunday will be:

Sunday school at 10:00 a. m. Preaching at 11:00 a. m. Christian Endeavor meeting at 6:30 p. m.

Miss Nina Garvin will lead the meeting.

The series of themes on the subject of the Holy Ghost will be continued at the preaching service. The theme will be, "The Place of the Holy Ghost in the Order of Grace." This theme will afford doctrinal instruction again for all who attend. Living in a time of many isms and religious fads the church needs to know the doctrine. It is hoped that all who can attend the service will avail themselves of the opportunity.

The junior class of girls met at the mausoleum last week and became an organized class, to be known as the "Willing Workers." The class will meet every two weeks. The next meeting will be at the home of Miss Marjorie Bridgman. Mrs. Williams is the teacher.

The mid-week service is held on Wednesday evening at the library room, 8:00 o'clock.

The young people's study-entertainment class will hold its regular meeting at the home of Miss Elizabeth MacCarthy on next Monday evening. A good attendance is, of course, desired.

R. G. Williams, Minister.

Center Services

The service at Center was again splendidly attended last Sunday evening, and the service was of high interest to all present. There will be the regular service next Sunday evening at 8:00 o'clock. There was also a good attendance last Thursday evening at the prayer and praise meeting. These meetings will continue weekly.

R. G. Williams in charge.

Episcopal

The Rev. Dr. Webb of Tacoma will celebrate Holy Communion at Christ Church, Portage, on Sunday, Feb. 15th, at 11:15 a. m.

VASHON P. T. A. MEETING

A very pleasant time was enjoyed at the home of Mr. and Mrs. G. W. Blekkink on Tuesday evening, the occasion being the regular monthly meeting of the Vashon Parent-Teachers association. There was a good attendance and an excellent program was given. Mr. Harmeling was unable to be present, but his contribution was read and received the endorsement of all. The paper read by Mrs. Kerl, contributed by the Mothers' Congress, was exceptionally good and met general approval. A protest was entered against school athletic meets held at distant points on the mainland which compel our students to remain over until Sunday. It was pointed out that such occasions were not conducive to the well-being morally of those participating. The "chalk-talk" given by Mr. Dahlager of the News-Record was much appreciated. After the musical program and a "community sing," ice cream and cake and a social time was enjoyed.

ONE OR THREE

Are you a reader of the Ladies' Home Journal, Saturday Evening Post or Country Gentleman? If you are you could not be induced to do without them. If you are not a reader, you do not know what the best magazines are publishing. See Miss Jacobs at Vashon State Bank, a Curtis service station.

You can get Tanlac at Garvin's—\$1.00.

HAY FOR SALE

I still have a few ton of Island hay for sale. A. Eernisse, 16-17 Vashon.

Use MURINE Night Morning Keep Your Eyes Clean - Clear - Healthy

All Can Have a Part In This Worthy Plan

The suggestion made in these columns last week that a fund be raised by popular subscription to defray the expense of a monument to be dedicated to the "unknown dead" and to take the place of the wooden marker in the Vashon cemetery has not met with a single response. This is a matter involving patriotism and civic pride. Let us get behind this and carry it through as a mark of respect to those who gave their all to a righteous cause. A dollar from each family on the Islands would be sufficient to procure a suitable monument. Who will be the first to send a dollar to W. D. Garvin? Let us hear from some one. Shall the business be left in the hands of the trustees of the cemetery association or should a committee be elected?

Methodist

The usual services of the day. Sunday school at 10:00 a. m. C. N. Hutcheson, supt. Elizabeth Markham, supt. junior dept.

Morning Worship at 11:00 a. m. Epworth League 6:30 p. m. Evening service 7:30 p. m.

Mr. Frank Barton, whose singing was much appreciated last Sunday evening, will again sing during the evening service.

The Ladies Aid held a very successful "work-a-day" meeting at the parsonage on Wednesday afternoon.

E. H. Gebert, Minister.

PATCH UP OPTIC NERVES NOW

In Many Cases Sight Has Been Restored to Blinded Soldiers by Army Surgeons.

In the field of medicine and surgery there were wonderful advances during the war. Bones from animals have been used successfully to replace human shin and arm bones splintered by high explosives. Skin grafting and facial reconstruction have become commonplace. New noses and ears have been created of thumbs and fingers.

The latest and most startling bit of surgery that has grown out of the war was performed at Fort McHenry hospital, Baltimore. Through it four soldiers, blinded by explosives and gas, have recovered their sight. The operation in each case was to repair shattered optic nerves. Skin, tissue, bone, muscle, veins and arteries have been patched and spliced successfully, but the delicate fabric of nerves has mostly defied the skill of surgery heretofore, and the mark of success upon four operations of such novelty and delicacy promises large things for humanity.

PROTEST ON "SNOBBERY."

England's new spurt in democracy and the tendency to break old-time class distinctions which are among the many changes wrought by the war, have caused protests against the system of designations of athletic contestants. "Gentlemen versus Players" is the manner in which a cricket match is billed when the game is between amateurs and professionals. It is contended by the objectors that the words savor too much of the old era of snobbery in England, which many British optimists had hoped was left dead on the field.

McCormack Bros. Inc.

TACOMA
Broadway and 13th Street

bed. The best way to fill the ruts is to put in fresh gravel and pack it down as much as possible.

As far as the old Portage landing is concerned, a new dock could be built with less expense than the road could be paved to the Portage-Des Moines dock. But, don't let that worry us. The main thing is to get the main road good from the north end to the south end and then put in good short roads to the main roads later. As far as the landing at Vashon Heights is concerned, I think it is practical. I don't think the wind bothers very much. Only a hard north wind, and we don't have them very often.

I don't doubt but what it has cost half as much already to gravel the roads on this Island as a paved road would have cost in the first place.

One thing sure, if we don't pull together we'll not get anywhere. We will be in the same old rut for years to come, and I think we should do all we can to make Vashon Island more beautiful and more home like. You old settlers surely ought to be able to stand it to build better roads than I, as I am a new settler. I would like to see the Island boom and when tourists come here they can say that we have at least 12 miles of first-class road.

Vashon, Wash. R. Thurston.

Sermon preached last Sunday morning on the subject of power, at the Presbyterian Church, by R. G. Williams, the pastor, on the text: Acts 1-8.

Rev. Williams said in part: "Power is the coveted requisite of all realms of human life. The society belle covets the power of social leadership. The artist covets the superior power of transmission and reproduction. The dramatist covets the power of elocution. The lecturer covets the power of oratory and persuasion. But there is a power greater than all of these, it is spiritual power, and this is the possible possession of all."

Now, to get at this subject profitably it must be considered with reference to its three-fold nature.

The Source of Spiritual Power

First, the source of this power must be considered. According to the text the source of this power is the Holy Ghost. This eliminates creed, dogma, religious profession, church affiliation, sacramental modes, catechism, confirmation, ecclesiastical position and authority as being even contributory of the real source of spiritual power. It lies exclusively in the one source mentioned, which is the prerogative of the church, and which the church in the corporate respect possessed for about three hundred years after its organization, at which time apostasy set in, then it was that a malignant power took possession of the church's principle and for many centuries the church was void of its natural power. Luther struck the false power a blow which crippled it and permitted a return of the spiritual power, which developed through the consecration of the elect element of the church, which in time again became the actuating force of the church and the world.

But again, this power was forced out by the elements of materialism, formalism, commercialism and many other isms entering the corporate system of the church so that again the church became void of its chief function of power. It is to be hoped that this power is not forever gone from the church. Perhaps it will never return in any general manner this side of the Millennium. But individually the church is gaining back her power, which is evidenced both by desire and demonstration. **The Demonstration, or Manifestation of Spiritual Power**

The second feature of this power is its demonstration, or manifestation. Concerning this there are two positions taken. They may be termed the positive and negative classes. The positive class held the idea that the demonstration of this power consists in emotion even that borders to the line of the conspicuous and spectacular. This class has some evidence to support its claim. On the event of Pentecost, when this power first fell upon the church, there was much emotional demonstration of it so much so, that there was what the world would term a babbling of tongues. Again, no doubt that the midnight expressions of the apostles in the Philippian prison was a demon-

stration of this power. Then, the Psalms abound with suggestions and exhortations to a demonstration of this same power. Then the church in all its effective history has had men and women to demonstrate in a most emotional manner a power that could not be questioned. And today there are in the church such demonstrative representatives; nor are they, many of them, of the minor element. So, the positive class holds sufficient evidence to substantiate its position.

The Negative Class

But the negative class has equally as much evidence to support its position. First, this class calls attention to the fact that the Pentecostal demonstration was not repeated by the early church, and that none of the apostles offered any particular emotional demonstration after this event, though in a different manner they did prove their possession of the power. Even Paul's empowerment under the imposed authority from Ananias brought no demonstration from him, so far as the record shows. And in no instance of Paul's apostolic life did he very emotionally demonstrate his power, except in the one possible case quoted.

Then, again, the church in all its effective periods has been represented by men and women of unquestioned power, but their power was never associated with great emotional demonstrations.

Again, if we go to the realm of nature we find much to support the negative position. The forces of nature are generally silent forces. The seed in the soil is a powerful principle, yet it operates silently. No noise or audible disturbance is associated with its development. The oaks of the forest are symbols of power, yet they never demonstrate their nature in any audible manner, but for centuries have stood in defiance of all the elemental forces that come against them.

Perhaps the nearest symbol the natural world offers of spiritual power is that of the great Niagara. Yet its representation of power doesn't lie in its ever-overflowing flow, nor in its thundering plunge, nor in its blood-curdling splash at the bottom of its abyss. These may be taken as representations of power, but its true representation of this Holy Ghost principle is offered in the electric conversion of that water into utilities of industry, agriculture and commerce. That conversion is effected without display or commotion. The on-rushing current and its thunder in cataract may cause excitement and awe, but they do not fully represent the power of the mighty river.

But the chief matter of support of the negative position is offered in the life of Christ himself. He received a visible baptism of the Holy Spirit, and He declared that all power was given unto Him, both in heaven and in earth, yet He never in one instance emotionally demonstrated that power in any devotional respect. Rather was his life that of docility, meekness and lamb-likeness. In His leaving this world He promised to leave His peace behind, but not any spiritual exuberance, only as that is implied in His peace. So, these both classes have much in scripture, in church history, in observation, in reason, and in experience, to support their respective positions.

The Objective, or Purpose of This Spiritual Power

Possibly a greater mistake is made at the point of the purpose of this power than at any other point of the subject. It is thought generally that the power is granted exclusively as a converting medium. Objectively this is true, but primarily this is a mistake. The text says the empowerment is effected to actuate a witnessing testimony. While the main objective of witnessing for Christ is the conversion of men, the witnessing may be done without meeting the objective. Jesus himself met this objective in but a comparatively small degree, if actually at all prior to his death. Yet there are many good meaning people who base their judgment of other people's relation to the Holy Ghost upon their power to convert men to the Kingdom. One is fulfilling the purpose of receiving the power in taking an open Christian avowal. Or in openly assuming the responsibility of personal membership in the church. Or in defending any righteous principle when the stand is called for. Or in doing any sort

DIAMOND QUALITY

SEEDS

For 1920 Plant Only The Best-

The increased cost of farming makes necessary the careful selection of seeds—improved varieties that produce profitable crops.

A Safe Guide to Quality and Fair Price

Our Seed Catalog and Planter's Guide is the standard reference for growers of the Northwest, listing our complete lines of Seeds, Trees and Plants, Fertilizers, Peatery and Bee Supplies, Sprays and Sprayers, Dairy Supplies and Equipment.

This handsome book is more than a Catalog. It's a true Guide to Profitable Planting!

improvement in any way, I would like to know why it would not be far better for the whole Island to have all the roads graveled than just one trunk road paved!

With the opening of the Tacoma ferry we are going to be right on the Seattle-Tacoma Route and naturally we will want an attractive road for this traffic, but it's a question whether we wish to invite the traffic which merely speeds past the door to the positive danger of children as well as older people.

Mr. Editor, I believe the whole Island is in your debt for raising this discussion at this time. Let's thrash it out so everyone will be satisfied that whatever action is taken will be for PUBLIC benefit and not for the benefit of some paving concern. I don't wish to suggest any ulterior motives at all, but I personally know of more than one paving company who have maintained a regular set of agents whose business it was to canvass for names on paving petitions. A suspicion of this kind can best be destroyed by everybody coming out into the open and comparing ideas.

Respectfully yours,
A. P. Casey

In Answer to the Road Paving

I have lived on the Island over four years, and I have seen more progress since I came here than I ever heard of before on the Island. Although I don't call the main road from the north end to the south end of the Island very good, considering the amount of work put on it. And as far as I am concerned I would like to see the paving go through. The roads are worse from my place, out to any place, than any I know of on the Island, and yet I am in favor of a good main road first, then build roads to each farmer's residence later on. It did not take long for the county to use our tax money on the paved road from Des Moines to Seattle, and you will meet 12 touring cars to one truck on an average. But now, because the Island wants to build about 10 or 12 miles of road it seems out of the question to some people.

If we don't get good roads pretty soon, our land won't be worth much, and as far as taxes are concerned we could stand it to pay a little more if necessary. Some people right now have had to pay double jitney fare enough to pay their extra taxes for several years on the paved road.

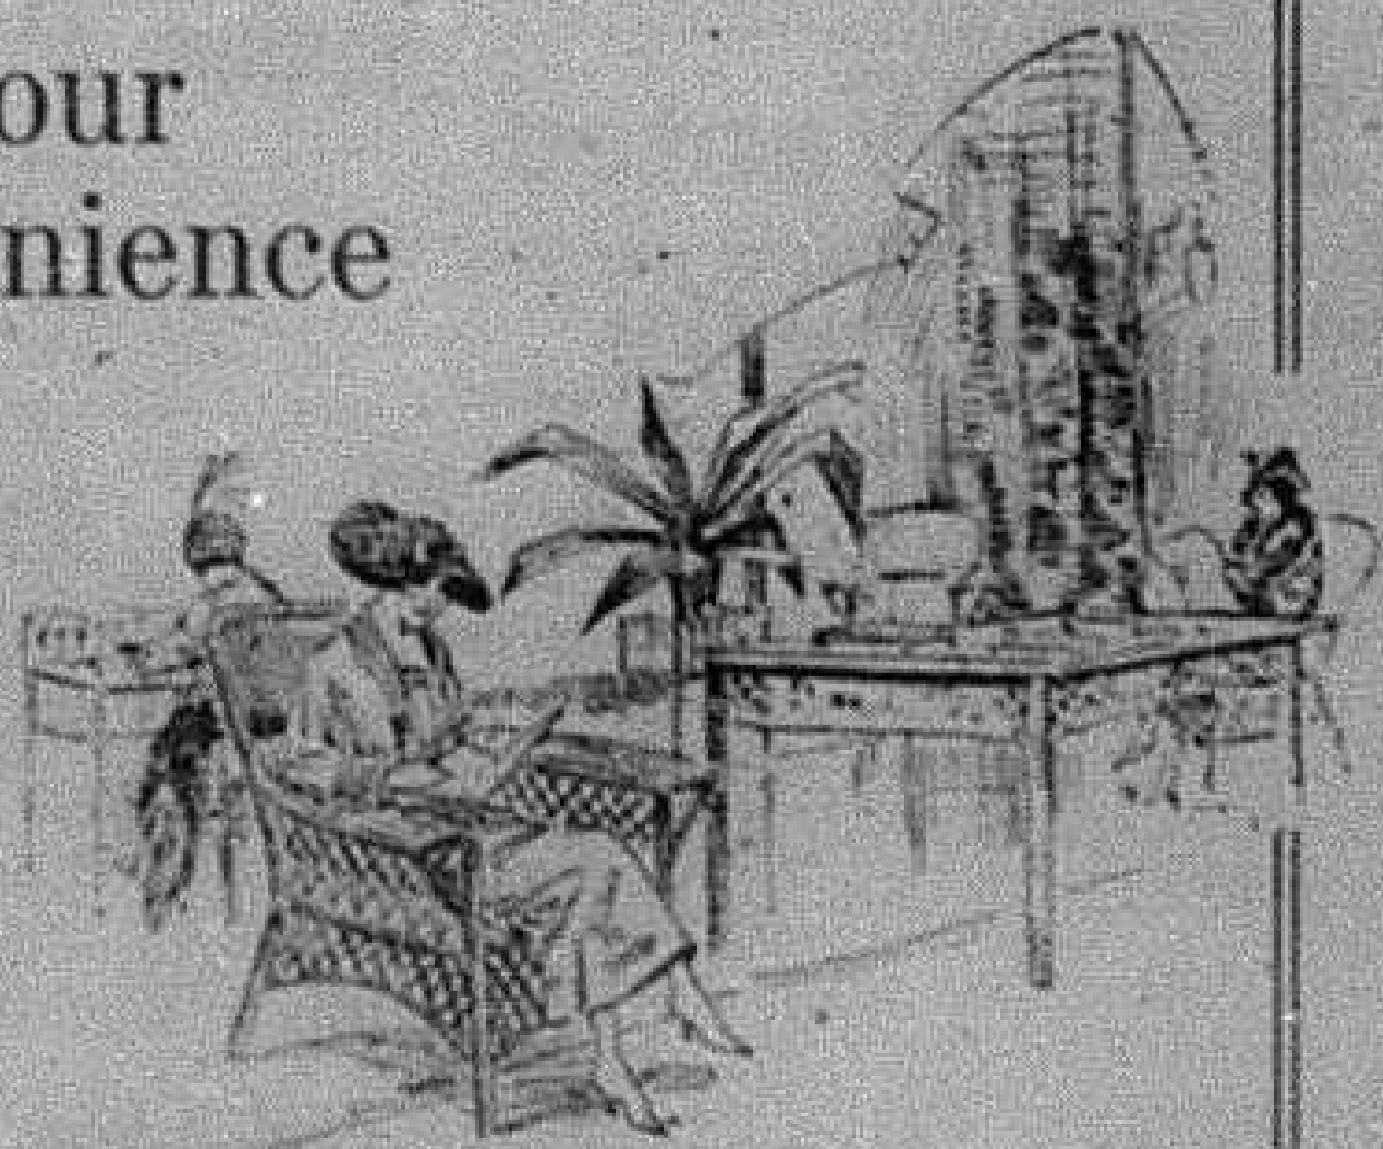

Another thing, I don't approve of the road boss having three men with two teams ride around on the road grader stirring up the cobble stones that are packed in the road

For Your Convenience When in Town

of Christian service, however comparatively insignificant, if the service is rendered faithfully. Nor does such fulfillment involve any emotional demonstration, necessarily.

The manner of witnessing for Christ is much a matter of special individual gift, which either is a native principle and put into action through the receiving of the power, or it is created by the power.

One may have the gift to evangelize individuals and communities, while another may but have the gift of intercession, the main objective of which is the same—evangelization. But let not those who are empowered to directly evangelize censure those who are empowered to directly perform a different service. Paul says there are diversity of gifts, but all by the same spirit. This must be so to meet the diversity of needs of the church and of the world. But the aim of all service performed through the power of the Holy Ghost is the same—the evangelization of the world for Christ.

We hope the public will take up this subject and discuss it through the News-Record. Criticism and agitation can do no harm if personalities are eliminated.
